-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. This action is responsive to RCE received on July 29, 2005. Claims 1-44 are canceled. Claims 45, 49 and 52 were amended. Claim 55 was newly added. Claims 45-55 are pending examination.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 46 and 52 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims state "the user community being defined by the or each identified common user characteristic". Examiner interprets the claim to be "the user community being defined by the identified common user characteristic".

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 45-54 are rejected under 35 U.S.C. 102(e) as being anticipated by Glorikian, U.S. Patent No. 6,772,213.

As to claim 45, Glorikian teaches a method comprising:

receiving a plurality of logon requests at a server that offers at least one service associated with an entertainment event, the event being at a particular location and being attended by a plurality of persons, each logon request being from a portable electronic device operated by a person physical attending the event, each logon request comprising device profile information associated with the portable electronic device making the logon request, each logon request further comprising user profile information associated with the person using the portable electronic device making the logon request (see col. 16 lines 56-col. 17 lines 37 and col. 18 lines 13-41, users log-on a server with a user profile saved in a database on the server);

in response to the logon requests, using the server to provide logon data to each portable electronic device making one of the logon requests, the logon data enabling each logged on portable electronic device to access each service offered by the server (see col. 7 lines 60-col. 8 lines 50, the portable device accesses information according to the location of the device); and

receiving, during the event, from at least a portion of the portable electronic devices logged on the server, feedback information associated with a particular service offered by the server, the feedback being input to the logged on portable electronic devices by persons attending the event (see col. 7 lines 60-col. 8 lines 50 and col. 17

lines 55-67, the user is presented with information according to the change in location of the mobile device).

As to claim 46, Glorikian teaches the method of claim 45 further comprising: analyzing the user profiles associated with the persons using portable electronic devices logged on the server to identify at least one common user characteristic; and based on the analyzing, automatically grouping at least a portion of the persons using logged on portable electronic devices into a user community, the user community being defined by the or each identified common user characteristic (see col. 11 lines 58-col. 12 lines 3).

As to claim 47, Glorikian teaches the method of claim 45 further comprising: providing streaming content to a particular one of the portable electronic devices in response to receiving feedback information from the particular portable electronic device (see col. 7 lines 60-col. 8 lines 50).

As to claim 48, Glorikian teaches the method of claim 45, wherein the logon requests each comprise the particular location of the entertainment event (see col. 7 lines 60-col. 8 lines 50).

As to claim 49, Glorikian teaches a method comprising: receiving a plurality of logon requests at a server that provides a plurality of services associated with an entertainment event, the event being at a particular location and being attended by a plurality of persons, each logon request being from a portable electronic device operated by a person physically attending the event, each logon request comprising user profile information associated with the person using the portable electronic device

Art Unit: 2157

making the logon request; analyzing the user profiles associated with the persons using portable electronic devices logged on the server to identify at least one common user characteristic; based on the analyzing, automatically grouping at least a portion of the persons using logged on portable electronic devices into a user community, the user community being defined by each identified common user characteristic; automatically offering a particular one of the services to each person in the user community, the service offered being based on at least one of the common user characteristics that define the user community; and receiving, during the event, from at least a portion of the portable electronic devices operated by persons in the user community, feedback information associated with the offered service (see col. 7 lines 60-col. 8 lines 50, col. 16 lines 56-col. 17 lines 37 and col. 18 lines 13-41).

As to claim 50, Glorikian teaches the method of claim 49 further comprising: providing streaming content to a particular one of the portable electronic devices in response to receiving feedback: information from the particular portable electronic device (see col. 7 lines 60-col. 8 lines 50).

As to claim 51, Glorikian teaches the method of claim 49, wherein the logon requests each comprise the particular location of the entertainment event (see col. 7 lines 60-col. 8 lines 50).

As to claim 52, Glorikian teaches a method comprising: receiving information from a plurality of portable electronic devices operated by persons physically attending an entertainment event, the event being at a particular location; analyzing the received information to identify at least one common characteristic shared by at least a portion of

the persons operating the portable electronic devices; grouping persons who share the or each common characteristic into a user community; offering a service to the persons in the user community, the offering being made via the portable electronic devices operated by the persons in the user community, the service being associated with the event; and receiving, during the event, from at least a portion of the portable electronic devices operated by persons in the user community, feedback information associated with the offered service (see col. 7 lines 60-col. 8 lines 50, col. 16 lines 56-col. 17 lines 37 and col. 18 lines 13-41).

As to claim 53, Glorikian teaches the method of claim 52: wherein the offered service comprises providing streaming content, the streaming content being associated with the entertainment event; and wherein the streaming content is provided to a particular one of the portable electronic devices in response to receiving feedback information from the particular portable electronic device (see col. 7 lines 60-col. 8 lines 50).

As to claim 54, Glorikian teaches the method of claim 52, wherein the information received from at least one of the portable electronic devices includes the particular location of the entertainment event (see col. 7 lines 60-col. 8 lines 50).

As to claim 55, Glorikian teaches the method of claim 52 wherein said event is a live event that includes at least one of a movie theater event, a sporting venue event, or a sports bar event (see col. 7 lines 60-col. 8 lines 50).
